

For Immediate Release

Contact: Michael Perez (Executive Producer)

THE ZOMBIES OF *RETURN OF THE LIVING DEAD* ARE BACK... AND WANT "MORE BRAINS!"

October 18, 2011—Just when you thought it was safe to be dead! Members of the creative team behind the award-winning *Never Sleep Again: The Elm Street Legacy* and Bio Channel's *Inside Story: Scream* have joined forces to unearth the story behind cinema's coolest zombie movie, *The Return of the Living Dead*.

More Brains! A Return to the Living Dead is the definitive exploration of the outrageous splatter classic, which has continued to terrify and entertain horror fans for over twenty-five years with its delicious mix of blood, guts, sex and punk. Boasting off-beat humor, plenty of attitude, and one of the most famous zombies ever committed to celluloid, it's easy to see why the film's legacy continues to grow.

Filming on the two-hour retrospective began in April 2011 in and around Los Angeles, and fans will finally be able to explore the film's journey from the world of *Night of the Living Dead* to the mind of acclaimed writer/director Dan O'Bannon. Audiences will be guided through the blood, sweat and tears as cast & crew look back on their graveyard experience creating the movie that's been called "a beauty of a cult classic!"

This entertaining and informative project will be the ultimate account of the tongue-in-cheek, stylish and apocalyptic zombie movie. It features—for the first time ever!—contributions from all the main cast as well as clips, photographs, storyboards, conceptual art, publicity materials, archival documents and behind-the-scenes footage.

"Watching movies like *Return of the Living Dead* at a young age set me on a course for the horror films I love today," says director Bill Philpott. "It's an honor to work so closely with people I've known for years. Getting such great insight into the making of the film, as only the cast and crew can give, has been a fantastic experience."

Executive producer Michael Perez agrees, "Working with the film's cast very closely for the last five years, they became more than clients and became great friends. Seeing the impact they and the film have had on fans worldwide is incredible, making me realize *Return of the Living Dead* has a real story to tell. I decided I wanted to help bring that to life and I hope the fans of the franchise will embrace this incredible retrospective as they have the movie."

"When I was approached to produce the project, I quickly proceeded to rewatch the original film," adds producer Tommy Hutson, who has some experience unlocking the behind-the-scenes secrets of horror genre classics as writer/producer of *Never Sleep Again: The Elm Street Legacy* and *Inside Story: Scream*, among others. "Within minutes I realized I couldn't pass the opportunity up. *Return of the Living Dead* is classic 80s horror: scary, funny, gory, sexy and completely cool. I just really loved the idea of exploring how the film was made and quickly realized the behind-the-scenes stories were sometimes as scary, funny, gory and sexy as the film itself!"

In addition to the comprehensive two-hour documentary, the October DVD release of *More Brains! A Return to the Living Dead* features an additional two hours of killer extras that will make viewers want to come back from the grave and party!
